

CITY OF FORT WAYNE

THOMAS C. HENRY, MAYOR

**Fort Wayne City Utilities Engineering
200 E. Berry Street, Suite 250
Fort Wayne, Indiana 46802**

May 24, 2019

Dear Resident or Property Owner:

Fort Wayne City Utilities is developing a design for a stormwater improvement project along the Hessen Cassel Road corridor and East Maple Grove Avenue. The purpose of this project is to improve drainage along the corridor and prevent flooding on East Maple Grove Avenue.

City Utilities engineering staff members would like to meet with you to show you the plans for the project and answer questions you may have. The project scope consists of installation of a 48" storm sewer between Hessen Cassel Road and the natural drain behind the homes on the south side of East Maple Grove Avenue. Additional inlets and a grading for a new 12" storm system for the east end of East Maple Grove are also part of this project.

We hope you will join us to learn more about the project design:

Tuesday, June 11, 2019 at 5:00 PM
Hessen Cassel Branch Library – 3030 E. Paulding Road
Fort Wayne, Indiana

The library is accessible for persons with disabilities. If you need other accommodations such as a language or sign language translator, please contact me at least 48-hours prior to the meeting at the phone number or email address below.

If you have questions between now and the meeting, or if you cannot attend the meeting but would like to discuss the project, please feel free to contact me at 260-427-2066 or at nathan.baggett@cityoffortwayne.org.

Sincerely,

Nathan Baggett, P.E.
Project Design Manager
