TODAY!

Thank you to our sponsors:

DOG OF HONOR: WINKY

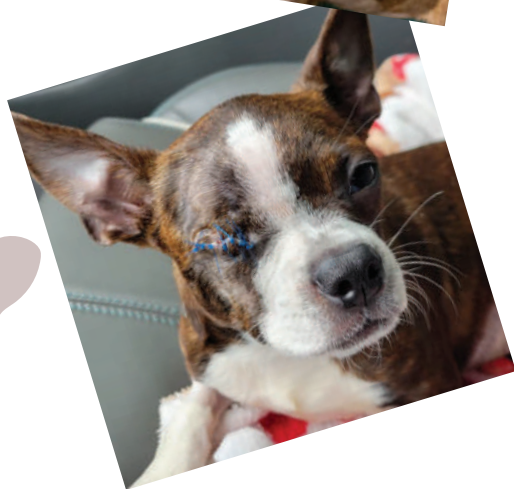

At just 5 months old, this sweet puppy came to FWACC as a lost pet in August 2024 with an extremely infected eye that was causing her a great amount of discomfort. An owner did not come forward, so our medical team followed through with the plan to remove her eye during her spay surgery since her eye was not functional. The eye removal surgery is called an eye enucleation; our veterinarian, Dr. Riebe, was able to provide this essential surgery because of the generous people like you who donate to our Angel Fund.

This sweet girl had a successful surgery and spent a few days being observed by our medical team to ensure that she was healing properly. Then, she went into a loving foster home to complete her recovery where she was lovingly named Winky. Winky's sutures were removed a few weeks later and then she was put into our adoption program where she quickly found a home with one of our amazing volunteers.

Winky is a representation of why we are gathered here tonight. Winky's quality of life was significantly improved because of our Angel Fund...because of you. This fund provides lifesaving and life-improving medical care to animals that have nowhere else to turn to and it is funded merely off of donations from our community.

We appreciate your support for Winky and animals just like her.
