

HOW DO I FIND ANIMALS THAT NEED TO BE FOSTERED?

- ➡ When we have animals that are in need of foster homes, we will post a picture with a brief description under the **GUIDE** titled **ANIMALS LOOKING FOR FOSTER HOMES!** and also tag the post with the hashtag #needingafosterhome.
- ➡ Posts will be made by the Facebook username **FWACC Fosters** If you want to foster an animal that is posted and feel your home is a good fit, please comment on that specific post. It is usually whoever comments they would like to foster the animal first is the one who gets to foster that animal (assuming it is a good fit for the person and animal).
- ➡ It may be helpful to turn on notifications for our foster group so you can be notified quickly once a new animal is posted that needs a foster home.
- ➡ Once a foster home has been secured, we will update the top of the post with **FOSTERED!** and remove the post from the **GUIDE**.
